

Friday 26 July 2013

United Energy Distribution

General Manager Customer & Market Services

Darryn McDonald

Dear CEO,

I refer to your letter not dated “Important information about the installation of a new electricity meter at your property” and your letter dated 19/7/2013 received at Friday 26 July 2013 “We are installing a new electricity meter at your property”

As pointed out to you in previous letters (send with registered post and delivery confirmation).I particular direct your attention to my letter dated Fri 1 Feb 2013 registered post 507968216011 – delivery confirmation 5.2/13. **We still object having a so called Smart Meter installed at my property** [REDACTED]

Let me assure you once again:

YOU ARE NOT INSTALLING A SMART METER AT MY PROPERTY

Furthermore: I strongly advise you to stop sending me letters with wrong, misleading and deceptive Information.

You included a phone number for language assistance on your letter. As you seem to have difficulties with some English words May I suggest / advise you to check the meaning of the following English words. The Oxford Dictionary might be helpful.

NO as in NO smart meter at my Property

(used in notices or slogans forbidding or rejecting something specified)

LAW as in when has the smart meter installation become a law. According to my understanding one requirement in Australia for a law is that it has to be passed thru Parliament

If you have information that the installation has become a law please advise me.

Misleading, Wrong, Deceitful as in your information about smart meter

(giving the wrong idea or impression: not fair, just, or legal

deliberately cause (someone) to believe something that is not true, especially for personal gain)

Trespassing as in entering a property without the consent of the owner

You might also consult a professional for the definition of **Harrasment/Bullying/Intimidation**

Should you wish, I am able to arrange a teacher for private consultation to help you understand the above and other words in English (Subject to an agreed fee).

Furthermore: I like to point your attention to the Essential Service Commission in regards to wrongful disconnection of an energy customer.

As the “NO Trespassing” Sign is clearly displayed at my property I thank you for your statement that signs will be ignored. If you or any person acting on your behalf attempt to install a “smart meter” at our property you will be trespassing and you will leave me no alternative but to take action to protect my property, health and democratic right.

Ignorantia juris non excusat or ignorantia legis neminem excusat

Yours faithfully

Gerhard
