

The Honey Bee says: **STOP5G**

5th Generation Wireless Technology

Headline News

The harmful effects of electromagnetic fields (EMFs) on nature have been scientifically recognised.

- **Technology is quite literally destroying nature...** with electromagnetic radiation from power lines and phone towers. . . 5G could increase threat. [Newsweek, 2018](#)
- **180 scientists and doctors from 35 countries** have signed a recommendation for a **5G moratorium**.
- **5G increases body temperature of insects.** [Pro Natura, 2019](#)
- **A \$30 million US National Toxicology Program (NTP)** study in 2018 found "clear evidence" that mobile phone radiation is **linked to cancer**.
- **... unprecedented exposure interferes with the natural functioning** of humans, animals, and plants.
Dr. Ulrich Warnke: [Bees and Mankind: Destroying Nature by 'Electrosmog', 2009](#)
- **"Birds disappearing mysteriously... bees under threat.** . . . increasing evidence EMF pollution such as cell towers, cell phones, cordless phones and wifi is a factor."
Dr. Andrew Goldsworthy, 2009 [The Birds, the Bees and EMF Pollution](#)
- **EMFs can cause cancer.**
[\(Hardell and Carlberg, 2018\)](#) [\(Soffritti, 2016\)](#) [\(Peleg, 2018\)](#)
- **Electromagnetic Fields A 'Credible Threat' To Wildlife**
Joel M. Moskowitz, Ph.D., [Principia Scientific International, 2018](#)

Impact on Birds and Bees

- "Due to electromagnetic smog, honeybees are often unable to return to their hives (Harst et al., 2006; Favre, 2011; Sharma & Kumar 2010; Sahib, 2011), the resulting massive loss of workers then leads to a colony collapse (e.g. Harst et al. 2006; Sharma and Kumar 2010), which is why electromagnetic radiation has been suggested as one potential cause of colony collapse disorder (CCD) (e.g. Warnke 2009; Sahib 2011)" [Journal of Insect Conservation \(Lázaro et al, 2016\)](#)
- Radiation impacts on wild birds documented nest abandonment, plumage deterioration and death. Lab studies of chick embryos documented heart attacks and death. [\(Al Manville PhD USFWS, 2016\)](#)
- EMFs evoke aversive behavior, developmental anomalies and mortality in studied animal groups. [\(Ministry of Environment & Forests Report 2011 P6\)](#)

Take Action!

1. Contact your local council, state and federal representatives and tell them to stop 5G!
2. Reduce wireless use, see safety tips [here](#).
3. Support your local [Stop 5G Facebook group](#).
